THE NIGHT IS DARKEST JUST BEFORE THE DAWN

BATMAN

WILL THE DARK KNIGHT RISE TONIGHT ?

TONIGHT
LIVE
JOKER

GOTHAM THEATRES

Batman is not just a superhero; he's a deeply complex character driven by the trauma of witnessing his parents' murder. This psychological depth sets him apart from many other superheroes. Unlike most superheroes, Batman has no superhuman abilities. Instead, he relies on his intelligence.

In the heart of Gotham City, where shadows crawl and crime festers like a disease, there exists a legend known to strike fear into the hearts of criminals. He is Batman, a dark avenger clad in black

moving with the silent grace of a predator through the labyrinthine alleys and towering skyscrapers. With a cowl that shields his identity and a cape that billows like wings of justice, he stands as a symbol against the darkness that threatens his city
